# Transforming Pathology Workshop

Prepared by the Strategic Projects Team, NHS EoE  
Not to be reproduced without permission.

Homerton College,  
Cambridge

# Transforming Pathology Workshop

## Your event details (1 of 2)

### **Date and time**

Wednesday 19 May 2010, 9:00 for a 9:30 start, to 17.00. This workshop will begin promptly, so please arrive in plenty of time. Light refreshments will be available.

### **Venue**

Paston Brown Room  
Homerton College  
Hills Road  
Cambridge, CB2 8PH  
01223 747111

### **What is this event?**

This workshop is based on the NHS Institute for Innovation and Improvement's Rapid Improvement approach, which uses intense events that apply lean techniques to process and deliver considerable change. Ensuring all stakeholders are involved is key to the event's success. Participants must feel part of the change process and own the outputs, which they will champion and actively communicate when taking it back into every day practice.

### **Food**

Refreshments and lunch will be available during the day to maintain the group's energy. If you have any special dietary requirements please contact [strategic.projects@eoe.nhs.uk](mailto:strategic.projects@eoe.nhs.uk) or call 0800 923 3001.

## Transforming Pathology Workshop

### Your event details (2 of 2)

#### **Environment and dress**

This workshop will be active. Dress is casual and comfortable. Please leave your briefcase behind, if you can, so you don't have to carry it around, as you move about. You will also have to switch off all mobile phones, pagers, etc. during the event. If you are on call, please consider sending a substitute as the event will require your full attention.

#### **Bring your four Cs with you**

**Candour** – This will be a safe environment for participants to work honestly with each other. Participants are given the opportunity to say what they really feel. Success without honesty is not possible.

**Courage** - Here we mean the quality of thought that is willing to get ego out of the way and examine all sides of an issue, to give up preconceptions of how things are supposed to be. Paradoxically, it also means holding onto your ground in the face of opposition to encourage understanding.

**Commitment** - This implies the devotion of effort, thought and self to the solution and to the team for the duration of the session.

**Competence** - Sharpen all of your business and thinking skills before the session begins. Bring wisdom and knowledge from all parts of your life with you and be ready to apply them to the task at hand.

**NHS** Institute for Innovation and Improvement  
The NHS Institute for Innovation and Improvement is kindly facilitating this event on behalf of NHS East of England's Strategic Projects Team.

# Transforming Pathology Workshop Timetable

Wednesday 19 May 2010

14:00	Future state mapping
15:45	Action planning (inc. refreshment break)
16:45	Wrap up
17:00	Close

We will start and finish on time. Other timings are approximate. Please plan your attendance for the *whole* day.

# Transforming Pathology Workshop Objectives

## Setting the scene

- Understand the implications for pathology services following Carter and the QIPP challenges (Dr Ian Barnes, National Clinical Lead for Pathology, Department of Health)
- Overview of the East of England Transforming Pathology project, its terms of reference and purpose

## The 'what'

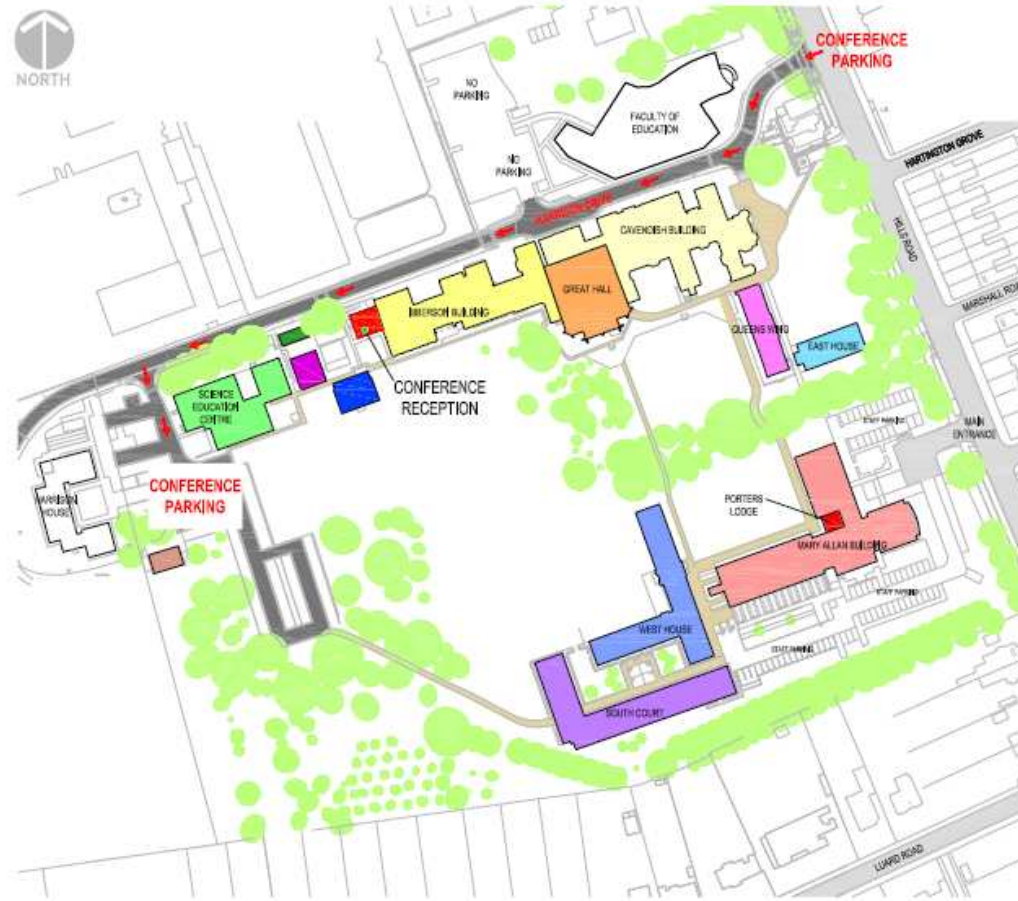

- Identify the opportunities within each pathology discipline to meet the challenges
- Identify the innovations required in each of the major pathology disciplines, commissioning and primary care to meet the challenges
- Agree optimum pathology process pathways for each of the major disciplines
- Agree key quality requirements for future pathology services and service providers
- Identify the high level productivity measures relating to activity, workforce & finance

## The 'how'

- Discuss potential models of service delivery that could meet the Carter and QIPP challenges
- Identify and address the main enablers, barriers and risks to implement changes in service delivery
